Programming Skills:	Javascript, Typescript, React, Angular, NextJS, NodeJS, Java, C#
Database Skills:	SQL Server, MySQL, Firebase, MongoDB, Amazon Athena, Dynamo DB
Cloud Skills:	AWS Cloud Practitioner Certified, Azure L100
Tech Skills:	DevOps, Software Architecture, Version Control, Security, API Development
Soft Skills:	Leadership, Problem Solving, Adaptability, Decision Making, Time Management

PROJECTS (ALL AVAILABLE IN GITHUB AND PORTFOLIO)

Personal Portfolio Web Application

- Technologies Used: React JS, Bootstrap, Node JS, SCSS
- A Web Portfolio that allows me to describe and demonstrate my resume and qualifications.
- View Web App: <https://sebasrios-portfolio.herokuapp.com/>

E-Commerce Web Application

- Technologies Used: React JS, Google Firebase, Redux, Stripe, GraphQL, Netlify
- An e-commerce application designed to sell products online with payment system integration.
- View Web App: <https://magnificent-alfajores-d15aa1.netlify.app/>

Tip Calculator App - Github Repo: <https://github.com/SebasRios34/Tip-Calculator>

- Technologies Used: JavaScript, CSS, HTML
- View Web App: <https://glowing-creponne-34dbd1.netlify.app>

Voice Recognition App - Github Repo: <https://github.com/SebasRios34/voice-reco-app>

- Technologies Used: JavaScript, CSS (Scss), HTML
- A web app that recognizes your voice and displays into text your words.
- View Web App: <https://velvety-trifle-6b6925.netlify.app/>

WORK EXPERIENCE (+4 YEARS EXP AS SOFTWARE ENGINEER)

Tek Experts

Jan 2020 - Feb 2021 Azure Cloud Support Engineer L2

- Provided support for the App Service resource at the Azure Cloud. Helped Azure clients deliver, develop and integrate App Services into their environments. Used technologies: Angular, JS, CSS, HTML, Azure App Service, Azure, NodeJS

Source 360 Group

Mar 2021 - Feb 2023 Software Engineer

- Helped develop, implement and maintain web interfaces for various clients such as Subaru and Centerpoint Energy. Used technologies: AEM Workflow, AEM Adaptive Forms, JavaScript, ReactJS, MSSQL, .NET

JLL / Amazon GREF

Mar 2023 - Present Software Engineer

- As a Full-Stack Developer, I excel in front-end development using React.js, Next.js, and TypeScript, and back-end development with Java, Node.js, and Python. I manage and develop SaaS solutions on Amazon GREF, gathering requirements, conducting sprint planning, performing rigorous code reviews, and mentoring team members. I am responsible for ensuring robust solution architecture and leading architectural design, as well as managing our cloud infrastructure utilizing AWS services.
